

***Available on supported devices**

- Touch ID is supported on **Apple iPhone 5S or above**
- Face ID is supported on **Apple iPhone X, iPhone XS Max and iPhone XR**
- If your device OS is **Android 8.0 and above**, you will be able to use **Fingerprint ID** unless your device is deemed unsecure by the app. For devices that are not supported we are continually reviewing to make biometrics available to even more customers. Please keep your app updated to the latest version.
